

Calico Pipe Vine

Aristolochia elegans

A root hardy vine with wonderful 3"- 4" ivory-mottled, velvety maroon flowers on a lush background of beautiful heart-shaped foliage. Trailing behind each open flower is a ‘string” of fascinating dutchman’s-pipe-shaped flower buds – like little soldiers, each waiting for their turn to show off. This variety is an outstanding swallowtail host plant!!! Sun, part shade. Does well in the landscape or in containers.
