

# Fireworks Gomphrena

## *Gomphrena* sp. 'Fireworks'

A gomphrena that blooms its head off! This tough plant is topped by long-lasting, intense hot pink flowers tipped with bright yellow. Drought-tolerant and low maintenance. 'Fireworks' gets taller than most gomphrenas – 36"-48". **Butterflies!** Treat as an annual, but may reseed. **Fantastic cut flower.** Looks absolutely brilliant in containers.
