

## **Holik Hamelia**

*Hamelia x 'Holik'*

This beautiful hamelia is a cross between the Golden Bells Hamelia and Hamelia patens. Clusters of burnt orange flower buds explode into open flared, trumpet shaped, bright saffron flowers throughout the heat of late spring, summer and fall. Glossy foliage gives this large perennial shrub a lush, rich look. Averages 5'-6'. Full sun. Moist, well-drained soil. **Hummingbirds!**
