

Winged Elm

Ulmus alata

Native, fast growing, deciduous, drought tolerant tree. **Quirky-corky winged bark** along its branches, **yellow fall color**. **Birds** love Winged elm's small seeds. Full sun – 40' x 30'. Neat & clean producing a minimum amount of litter – it makes a good sidewalk or street tree.

Outstanding for city conditions – highly tolerant of stressful conditions.

Fun fact: Winged elm is the wood of choice for hockey sticks due to its resistance to splitting.
